

Delivery via ParcelShop

- Personal service

GLS

We are always nearby with more than 1.750 ParcelShops in DK.

When customers make an order in your webshop, you can offer them delivery to a ParcelShop. We pick up the parcel at your address and deliver it to the chosen ParcelShop.

Your customers decide when they want to pick up the parcel. It is ready for pick up next day. If the parcel is not picked up within 7 days, we return the parcel to you.

Advantages for the consignor

- Flexible delivery.
- Access to customers not at home during the day.
- Short delivery times
 - pick up on the day of delivery in ParcelShop.

Advantages for consignee

- Decide when and where the parcel should be picked up.
- Personal service.
- Long opening hours.
- Notification per mail/sms.

Integration in your webshop

If order for your customer to be able to choose which ParcelShop to pick up from, we have developed the ShopFinder.

ShopFinder shows the nearest ParcelShops to the entered address.

ShopFinder can be implemented in your webshop in different ways:

- You implement the Shop Finder yourself. Read more in our technical documentation.
- You can buy a complete solution at Webshipr.com
- You use a module from WWI A/S that cost about DKK 2.500,-
- Your web shop host supports ShopDeliveryService, e.g.:
 - DanDomain, Golden Planet, MCB, Magentohotel.dk, Mediastyle.dk, PrestaShop, ScanNet, ScanCommerce, SmartSend

Print of labels

A file with the label has to be generated from your web shop or ERP-system.

Printing with our software:

- **YourGLS**
Web based print program, where the order is entered manually.
- **Web API**
Implemented or used for own solution.
- **InterLine**
Print program installed on your server. Possibility of direct print from the order file.

- UniBox

A GLS server that transfers a label to your printer from an order file.

Printing with other software:

- Consignor offers individual print solution.
- ScanNet, ScanCommerce and WWI offer integrated web shop and print program.
- Shipmondo offers print of labels for known web shops.

Track & Trace

We offer the opportunity to a direct link to Track & Trace. This way your customer has the possibility to trace the parcel from you and all the way to delivery.

You can see the documentation here and IT Customer Support are happy to help by phone 76 33 12 35 or it@glg-denmark.com. If you wish to see the system live, we can send a list of references.
